TransLogistica Uzbekistan 2025 INSIGHTS FROM PARTICIPANTS

Farid Vakhidov
Director
**ATI.SU Representative
Office in Uzbekistan**

This is our third participation in the exhibition, and we plan to return next year. For us, TransLogistica is a key industry platform in Uzbekistan, where we can meet our existing partners and introduce our platform to new users. Since the opening of our representative office in 2022, the number of our active clients in the country has exceeded 12,000, and participation in the exhibition significantly accelerates this growth. Uzbekistan is a strategic market for us due to the rapid growth of transport flows and trade turnover. In recent years, population growth in Uzbekistan has also contributed to an increase in freight volumes.

Zinira Okboeva
Commercial Manager
Fly Khiva Group

We attended the previous two editions of the exhibition as visitors, were impressed by its potential, and decided to participate this year. TransLogistica Uzbekistan attracts a large number of visitors from our target audience. We met many clients, presented our products, and signed several contracts – overall, our participation was highly effective and productive. We also received the Best Product Presentation Award. Next year, we plan to expand our stand and secure a central location.

TransLogistica Uzbekistan 2025 INSIGHTS FROM PARTICIPANTS

Khikmat Rasulov

Head of Sales

UzContargo Andijon JV LLC

For UzContargo Andijon JV LLC, a rail and road logistics joint venture in Uzbekistan, participation in the exhibition and Transport Forum was an important milestone. Our company's head took part as a speaker, and we presented our plans to develop a container terminal at Pakhtachi station to serve both importers and transit cargo along the Belt and Road route. We plan to expand our business and continue regular participation to stay closely connected with our partners and the professional community. We look forward to meeting again at TransLogistica 2026.

Irina Yerokhina

Regional Director

**Central Asia &
CIS WR Logistics**

We actively participated in both the exhibition and the Transport Forum, where we established productive dialogue with logistics companies and representatives of transport authorities from multiple countries. We were honoured to receive the Best Product Presentation award – a recognition of our team's strong collaboration and commitment to best-in-class technologies in both logistics and brand presentation. We are proud that our efforts were highly appreciated and will continue to deliver high standards of service to our clients.
